

# Voter Registration

## Voter Registration Policy

1. Information on voter registration is posted on the financial aid bulletin board
2. Registration forms are available on the financial aid bulletin board or in the financial aid office
3. An email is sent to students with the website: <http://ova.elections.il.gov/> that the students can go to and register online
4. Voter registration opportunities are available by all methods mandated by the National Voter Registration Act of 1993. Illinois has fully implemented the National Voter Registration Act of 1993. Although the Illinois General Assembly has not passed any legislation to implement the NVRA in Illinois, the State Board of Elections has done so by its rule making authority. These rules will remain in effect until such time as pre-emptive legislation is passed.
