- Transfer rate – information on the transfer-out rate of certificate- or degree-seeking, first-time\*, full-time undergraduate students, if the school’s mission includes providing substantial preparation for students to enroll in another eligible school.

Graham Hospital School of Nursing’s mission does not include providing substantial preparation for students to enroll in another eligible school.

- Retention rate – information on the retention rate of certificate- or degree-seeking, first-time\*, undergraduate students.

School Catalog – pg. 25

\* First-time student: a student who has no prior postsecondary experience (except as noted below) attending any institution for the first time at the undergraduate level. This includes students enrolled in academic or occupational programs. It also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

Graham Hospital School of Nursing has a very small number of students who are full-time, first-time, degree/certificate seeking students. Most of our students have completed some course work before entering our program and are therefore not considered first-time, degree/certificate students.

- Placement rate – information on the placement of, if the school calculates such a rate, and types of employment obtained by graduates of the school’s degree or certificate programs.

Graham Hospital School of Nursing does not calculate a placement rate or advertise job placement rates as a means of recruiting students.

Graduates are employed as Registered Nurses in hospitals, clinics, nursing homes, medical offices, and other such settings.
